SEMI-ANNUAL REPORT
(UNAUDITED)

This report may contain forward-looking statements about the Company. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Company action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Company and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Company. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Company currently anticipates that subsequent events and developments may cause the Company’s views to change, the Company does not undertake to update any forward-looking statements.

SEMI-ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE
MAY 31, 2026

This is the semi-annual Management Report of Fund Performance (MRFP) for the period ended May 31, 2026. This MRFP contains financial highlights but does not contain the complete financial statements of the Company. The semi-annual financial statements and accompanying notes are attached to this report.

Investors may also obtain a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure by visiting our website at www.financial15.com or by writing to the Company at Investor Relations, 200 Front Street West, Suite 2510, Toronto, Ontario M5V 3K2.

These reports are available to view and download at www.financial15.com or www.sedarplus.com.

INVESTMENT OBJECTIVES AND STRATEGIES

US Financial 15 Split Corp. invests primarily in a portfolio of common shares which will include each of the following U.S. financial services companies listed below:

American Express Company	Morgan Stanley
Bank of America Corp.	PNC Financial Services Group Inc.
Bank of New York Mellon Corp.	Regions Financial Corp.
Citigroup Inc.	State Street Corp.
CME Group Inc.	Truist Financial Corporation
Fifth Third Bancorp	U.S. Bancorp
Goldman Sachs Group Inc.	Wells Fargo & Co.
J.P. Morgan Chase & Co.	

The Company may also invest up to 20% of the net asset value in equity securities of issuers other than the 15 financial services companies listed above. In order to supplement the dividends received on the portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares in the portfolio.

The Company offers two types of shares:

Preferred shares

The investment objectives with respect to the Preferred shares are as follows:

1. To provide holders with a cumulative preferential monthly dividend at an annualized rate of 10% based on the net asset value per unit as at the end of the preceding month, subject to a maximum monthly dividend of \$0.08333 per Preferred share; and
2. On or about the termination of December 1, 2030 (subject to further 6 year extensions thereafter), to pay holders the original issue price (\$10) of the Preferred shares.

Class A shares

The investment objectives with respect to the Class A shares are as follows:

1. To provide holders with such dividends as the directors of the Company may from time to time determine; and
2. On or about the termination date, to pay holders such amounts as remain after paying the holders of the Preferred shares the amounts owing to them.

RISK

The risks of investing in the Company remain as discussed in the Annual Information Form dated February 23, 2026. In addition, note 6 of the financial statements ("Management of Risk of Financial Instruments") contains disclosure on specific types of risks related to the financial investments held by the Company.

RESULTS OF OPERATIONS

U.S. equity markets generated positive returns during the six months ended May 31, 2026, despite periods of volatility driven by geopolitical developments, inflation concerns and uncertainty regarding the outlook for economic growth and interest rates. Equity market performance was supported by continued economic growth, resilient consumer spending and generally favourable corporate earnings results.

Monetary policy remained an important influence on market conditions during the period. The U.S. Federal Reserve maintained its policy interest rate throughout the six months ended May 31, 2026.

In the United States, economic activity remained relatively resilient, supported by strong capital investment and productivity growth. Significant investment in data centres and artificial intelligence infrastructure contributed to economic growth and was a driver of equity market performance during the period. Labour market conditions remained stable, with job gains generally keeping pace with labour force growth and the unemployment rate changing little during the period. Inflation remained above the Federal Reserve's target, with energy prices continuing to contribute to inflationary pressures.

The conflict in the Middle East, higher energy prices, supply chain disruptions and continued uncertainty regarding U.S. trade policy contributed to elevated economic uncertainty during the period. Against this backdrop, uncertainty regarding the timing and extent of future interest rate changes remained an important factor influencing investor sentiment and financial markets throughout the period.

Performance within the U.S. financial sector was mixed, with returns varying significantly across banking, insurance and capital markets businesses.

As at May 31, 2026, net assets of the Company were \$13.1 million (November 30, 2025-\$12.8 million) and net assets per unit of the Company were \$8.78 (November 30, 2025-\$8.49). During the period ended May 31, 2026, redemptions totalled \$128,282.

The covered call writing program continued to provide additional income and supplemented the dividend income earned in the portfolio.

Class A shares – Distributions

No distributions were made during the period.

3.70

Cumulative total of distributions paid to Class A share since inception

Preferred shares – Distributions

Total distributions per Preferred share during the period amounted to \$0.4271.

11.17

Cumulative total of distributions paid to Preferred share since inception

RECENT DEVELOPMENTS

Ongoing geopolitical tensions, conflicts and uncertainty regarding international trade policies may contribute to market volatility and could impact the Company’s investment portfolio.

RELATED PARTY TRANSACTIONS

- (1) Net assets per unit is the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Preferred shares and net assets attributable to holders of redeemable Class A shares, at the valuation date, divided by the number of units then outstanding.
- (2) Total increase (decrease) from operations is before the payment of Preferred and Class A share distributions and remeasurement on Preferred shares, and is calculated based on the weighted average number of units outstanding during the period.
- (3) Distributions on the Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution in the period and were paid in cash. Distributions per unit represent the aggregate distributions declared on one Preferred share and one Class A share. Characterization of distributions is based on the tax treatment that is received by investors (for semi-annual periods ended May 31, allocations for tax purposes are not available until year end).

(1) This information is provided as at May 31 or November 30.

(2) At times when there is an unequal number of Preferred shares and Class A shares outstanding, a notional unit amount will be determined as the quotient of the total net asset value of the Company and the sum of the net asset value per share attributable to Preferred shares and Class A shares.

(3) Management expense ratio per unit is based on total expenses for the stated period, excluding commissions and other portfolio transaction costs, withholding tax and distributions on Preferred shares and is expressed as an annualized percentage of the average net asset value of the Company during the period.

(4) The Company's portfolio turnover rate indicates how actively Quadravest manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its Portfolio once in the course of the period. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a period, the greater the trading costs payable by the Company in the period and the greater chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the Company.

(5) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the average net asset value of the Company during the period.

MANAGEMENT FEES

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date. In addition, Quadravest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Pursuant to the management agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.1% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date.

The base management fee was used by Quadravest to provide investment analysis, make investment decisions, and make brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company which includes all operational services, financial accounting, shareholder reporting and regulatory reporting.

PAST PERFORMANCE
Year-by-Year Returns

The past performance of 1) the net asset value per unit; 2) the Preferred share on a net asset value basis; and 3) the Class A share on a net asset value basis for each of the last 10 years are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a unit, a Preferred share or a Class A share would have increased or decreased during the applicable year. In respect to the charts displayed below, please note the following:

- a) The performance information shown assumes that all cash distributions made by the Company during the years shown were reinvested in the applicable additional securities of the Company;
- b) The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
- c) Past performance of the Company does not necessarily indicate how it will perform in the future.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

1. Incorporation

US Financial 15 Split Corp. (the “Company”) is a mutual fund corporation established under the laws of the Province of Ontario on December 17, 2004 that began investment operations on February 15, 2005. The manager and the investment manager of the Company is Quadravest Capital Management Inc. (“Quadravest” or “Manager”). The termination date of the Company is December 1, 2030 and may be extended thereafter at the Company’s discretion for additional terms of six years each. The Company’s principal office is located at 200 Front Street West, Suite 2510, Toronto, Ontario M5V 3K2. The Company invests in an actively managed portfolio of common shares comprised primarily of 15 core large capitalization U.S. financial services companies. The Company employs an active covered call writing program to enhance the income earned from the portfolio.

2. Sufficiency of Assets

The Company has 1,488,446 Preferred shares outstanding as at May 31, 2026 with a principal repayment target of \$10.00 per Preferred share for a total of \$14,884,460 due on the termination date, December 1, 2030. As at May 31, 2026, the Company has net assets equivalent to \$8.78 per Preferred share for a total of \$13,072,290. This represents a deficiency as at May 31, 2026 of \$1.22 per Preferred share and a total deficiency of \$1,812,170, as compared to the principal repayment amount. For so long as the net asset value per unit of the Company is equal to or less than \$10.00, all income and expenses of the Company will be attributable to the Preferred shares.

3. Basis of presentation

These financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS Accounting Standards”), as applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34, Interim Financial Reporting. These financial statements should be read in conjunction with the annual financial statements for the year ended November 30, 2025, which were prepared in accordance with IFRS Accounting Standards.

These financial statements were approved by the Board of Directors of the Company on July 15, 2026.

4. Material accounting policy information

The following is a summary of material accounting policy information applicable to the Company.

Investments and financial instruments

The Company classifies its investments, including derivatives, based on both the Company’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Company has not taken the option to irrevocably designate any equity securities as fair value in other comprehensive income (“FVOCI”). Consequently, all investments, including derivatives are measured at fair value through profit or loss (“FVTPL”).

The Company’s obligations for net assets attributable to holders of redeemable Class A shares are presented at the annual redemption amount. All other financial assets and liabilities are recognized initially at fair value and subsequently measured at amortized cost, which approximates fair value.

US FINANCIAL 15 SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

The Company recognizes regular purchases and sales of financial instruments on the trade date, which is the date on which it commits to purchase or sell the instrument. Transaction costs, such as brokerage commissions, related to financial assets and financial liabilities at FVTPL are expensed as incurred and transaction costs related to financial instruments not at FVTPL are included in the carrying amounts thereof. A financial asset is derecognized when the rights to receive cash flows from the investment have expired or have been transferred and when the Company has transferred substantially all the risks and rewards of ownership of the asset. Dividends are recognized as income on the ex-dividend date. Realized gains and losses and unrealized appreciation and depreciation are determined on an average cost basis. The cost of investments is determined using the average cost method.

Written option premiums received by the Company are, so long as the options are outstanding, reflected as a liability, in the Statements of Financial Position and are valued at an amount equal to the current market value of an option that would have the effect of closing the position. Gains or losses realized upon expiration or exercise of the option are included in net realized gain (loss) on investments and derivatives in the Statements of Comprehensive Income/(Loss).

The Preferred shares rank prior to the Class A and Class B shares and are thus not subordinate to all other classes of puttable instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost. Amortization of premiums or discounts on the issuance of Preferred shares is included in the Statements of Comprehensive Income/(Loss).

The Class B shares are subordinate to the Preferred shares but rank prior to the Class A shares and are thus not subordinate to all other classes of puttable instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost.

The Class A shares may be retracted monthly, annually, or on the termination date of the Company. As a result, the shares contain multiple contractual obligations, and therefore, have been presented as financial liabilities.

The net asset value of the Company is determined in accordance with requirements of law, including National Instrument 81-106, Investment Fund Continuous Disclosure, and is used to process shareholder transactions. For financial reporting purposes net assets of the Company is determined as the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Preferred shares and net assets attributable to holders of redeemable Class A shares ("Net Assets of the Company"). Preferred shares and Class A shares are issued on the basis that an equal number of Preferred shares and Class A shares (together, a "unit") will be issued and outstanding at all material times. At times when there is an unequal number of Preferred shares and Class A shares outstanding, a notional unit amount will be determined as the quotient of the total net asset value of the Company and the sum of the net asset value per share attributable to Preferred shares and Class A shares.

Valuation of investments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded shares and options) are based on the last traded prices at the close of trading on the reporting date. The Company uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point

US FINANCIAL 15 SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. The Company's policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and others commonly used by market participants and which make the maximum use of observable inputs. Refer to note 6 for further information about the Company's fair value measurements.

Cash

Cash is comprised of demand deposits with a financial institution.

Translation of foreign currencies

The Company's functional and presentation currency is Canadian dollars. The fair value of investments and other assets and liabilities in foreign currencies are translated into the Company's functional currency at the rates of exchange prevailing at each measurement date. Purchases and sales of investments, income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions.

Management fees, administration fees and performance fees

Management fees and administration fees are accrued by the Company over time, as services are rendered by QuadraVest. At each measurement date, the Company recognizes an expense and financial liability based on the amount, if any, of performance fees expected to be paid based on net asset value of the Company. Refer to note 9 for further information about the calculation of management, administration fees and performance fees, if any, of the Company.

Increase (decrease) in net assets attributable to holders per redeemable Class A share

Increase (decrease) in net assets attributable to holders per redeemable Class A share based on the increase or decrease in net assets attributable to holders of redeemable Class A shares divided by the weighted average number of such shares outstanding during the period. Refer to note 10 for the calculation.

Taxation

The Company qualifies as a mutual fund corporation under the Income Tax Act (Canada) (the "Tax Act") and it is subject to income tax in each taxation year on the amount of its net income for the taxation year, including net realized taxable capital gains, if any, at the rate applicable to mutual fund corporations. The general income tax rules associated with a public corporation also apply to a mutual fund corporation with the exception that taxes payable on net realized capital gains are refundable on a formula basis when its shares are redeemed or when it pays capital gains dividends out of its capital gains dividend account to its shareholders.

Interest and foreign income are taxed at normal corporate rates applicable to mutual fund corporations and can be reduced by permitted deductions for tax purposes.

US FINANCIAL 15 SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

All of the Company's expenses including management fees, administration fees and operating expenses will be taken into account in determining its overall tax liability.

As a mutual fund corporation, taxable dividends received from taxable Canadian corporations are subject to a Part IV tax of 38 1/3%. Such taxes are fully refundable upon payment of taxable dividends to its shareholders on a basis of \$1.15 for every \$3 of dividends paid. Any such tax paid is reported as an amount receivable until recovered through the payment to shareholders of dividends out of net investment income. All tax on net taxable realized capital gains is refundable when the gains are distributed to shareholders as capital gains dividends or through redemption of shares at the request of shareholders, while the Company qualifies as a mutual fund corporation. As a result of the capital gains refund mechanism and Part IV tax refunds, the Company recovers any Canadian income taxes paid in respect of its capital gains and taxable Canadian dividends. As a result, the Company has determined that it is in substance not taxable. Consequently, the tax benefit of capital and non-capital losses and other temporary differences have not been reflected in the Statements of Financial Position as deferred income tax assets or liabilities.

The Company has estimated accumulated non-capital losses for tax purposes as at May 31, 2026 of \$3,269,555 (November 30, 2025-\$3,269,555) that are available to lower taxable income in future periods if required and expire after the scheduled termination date of the Company. The Company also has estimated accumulated capital losses for tax purposes of \$47,783,025 (November 30, 2025-\$47,783,025) which may be used to lower future capital gains if required and which do not expire.

The Company currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statements of Comprehensive Income/(Loss).

5. Critical Accounting Estimates and Judgments

The preparation of these financial statements include estimates and assumptions by management based on past experiences, present conditions and expectations of future events. Where estimates were made, the reported amounts for assets, liabilities, income and expenses may differ from the amounts that would otherwise be reflected if the ultimate outcome of all uncertainties and future events were known at the time these financial statements were prepared. The Company's most significant estimates involve the measurement of investments and derivatives at fair value as described in note 6.

6. Management of Risk of Financial Instruments

The Company classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three levels of the fair value hierarchy are:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can assess at the measurement date;

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - Inputs that are unobservable for the asset or liability.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at May 31, 2026 and November 30, 2025:

Financial assets and liabilities at fair value as at May 31, 2026

	Level 1	Level 2	Level 3	Total
Equities	\$12,828,548	-	-	\$12,828,548
Options	<u>(\$6,144)</u>	<u>-</u>	<u>-</u>	<u>(\$6,144)</u>
	\$12,822,404	-	-	\$12,822,404

Financial assets and liabilities at fair value as at November 30, 2025

	Level 1	Level 2	Level 3	Total
Equities	\$12,753,601	-	-	\$12,753,601
Options	<u>(\$5,200)</u>	<u>-</u>	<u>-</u>	<u>(\$5,200)</u>
	\$12,748,401	-	-	\$12,748,401

All fair value measurements above are recurring and fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. There were no transfers or reclassifications between levels for the period ended May 31, 2026 or the year ended November 30, 2025.

The Company's investment activities expose it to a variety of financial risks: market risk (including price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Any sensitivity analysis presented below may differ from actual results and the difference could be material.

Market Price Risk

All securities investments present a risk of loss of capital. The 15 core holdings were selected because of their long term history of market price appreciation and dividend growth. These Portfolio companies were selected from the financial services index of the S&P 500 index and are among the largest financial services companies in United States.

The market price risk is affected by three main components: price risk, interest rate risk and foreign currency movements.

Price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk).

The Manager manages market price risk by limiting investment in any one portfolio company to no more than 10% of the net asset value of the Company at the time of purchase.

In addition, the supplemental covered call writing program generates an additional stream of income to the portfolio which may also help mitigate against market price declines during periods in which a particular portfolio company has a covered call option written against that position.

Since the 15 core holdings are significant components of their corresponding financial services index, it would be reasonable to expect that the Company's portfolio will exhibit market price movements that are reflective and generally highly correlated with those particular securities and to a lesser extent with the price movements of the S&P U.S. financial services index.

US FINANCIAL 15 SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

The Company is exposed to other price risk from its investment in equity securities and written options. As at May 31, 2026, had the prices on the respective stock exchanges for these equity securities increased by 10%, with all other variables held constant, Net Assets of the Company would have increased by approximately \$1,272,000 (November 30, 2025-\$1,250,000). Similarly, had the prices on the respective stock exchanges for these equity securities decreased by 10%, with all other variables held constant, Net Assets of the Company would have decreased by approximately \$1,279,000 (November 30, 2025-\$1,273,000).

Interest rate risk

Interest rate risk is the risk that the fair value of interest bearing financial instruments will fluctuate due to changes in market interest rates. The majority of the Company's financial assets and liabilities are non-interest bearing. As a result, the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates and considers interest rate risk insignificant as at May 31, 2026 and November 30, 2025.

Currency risk

Currency risk is the risk that financial instruments that are denominated in a currency other than the Canadian dollar, which is the Company's reporting currency, will fluctuate due to changes in exchange rates. All portfolio holdings are listed on the New York stock exchange and trade in U.S. dollars. As at May 31, 2026, 99.8% (November 30, 2025-101.0%) of the Net Assets of the Company are invested in U.S. dollar denominated assets which includes U.S. dollar cash held. As a result, the Company's Net Assets will be affected by changes in the U.S. dollar relative to the Canadian dollar. If the Canadian dollar appreciated/depreciated by 5% against the U.S. dollar, the Net Assets of the Company would currently decrease/increase by approximately \$653,000 (November 30, 2025-\$644,000).

Other risks

Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts in full when due. All of the Company's transactions are in listed securities and options and are settled and paid for using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment. Payment is made on purchase once the securities have been received by the broker. Cash is held with a reputable and regulated financial institution. As at May 31, 2026 and November 30, 2025, the Company did not have significant credit risk exposure.

Liquidity risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company is exposed to liquidity risk primarily through its monthly and annual retractions of Class A shares and Preferred shares. The Company receives adequate notice for all retraction requests. The Company's portfolio is invested in highly liquid large capitalization investments that trade on the New York Stock Exchange. All Class A shares and Preferred shares outstanding are redeemable on a monthly and annual basis but are scheduled to be redeemed upon termination of the Company. As at May 31, 2026 and November 30, 2025, all other financial liabilities are payable within three months from the end of the period.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

Concentration risk

The Company's holdings are concentrated in the financial services sector and as such will be exposed to the specific factors that affect this sector. An individual Portfolio holding may represent no more than 10% of the net asset value of the Company at the time of purchase.

The Company's investment portfolio is concentrated in the following segments as at:

	May 31, 2026	November 30, 2025
U.S. core common equities	90.7%	92.8%
Other U.S. common equities	7.3%	7.3%
Call options written	0.0%	0.0%
Other assets less liabilities		
(excluding Preferred shares)	2.0%	-0.1%
	<u>100.0%</u>	<u>100.0%</u>

7. Redeemable Units

Preferred shares

The Company is authorized to issue an unlimited number of Preferred shares.

Preferred shareholders are entitled to receive fixed cumulative preferential monthly cash dividends at an annualized rate of 10% of the previous month's net asset value, subject to a maximum monthly dividend of \$0.08333 per Preferred share. All Preferred shares outstanding on the termination date will be redeemed by the Company on that date. The Preferred shares have been presented as liabilities in the financial statements.

Preferred shares trade under the symbol "FTU.PR.B" on the Toronto Stock Exchange ("TSX"). The trading price of Preferred shares on the TSX was \$8.45 as at May 31, 2026 (November 30, 2025-\$8.00). Preferred shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last business day of each month. Shareholders who concurrently retract a Preferred share and a Class A share (together, a "unit") in the month of February in each year will be entitled to receive an amount equal to the net asset value per unit calculated on the last business day of February. Preferred shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a recirculation agreement, the Company may, but is not obligated to, require the recirculation agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction.

The Preferred shares rank in priority to the Class A shares and Class B shares with respect to the payment of dividends. Preferred shares rank in priority to the Class A shares upon termination of the Company. Upon termination of the Company, Preferred shareholders will receive the lower of the net asset value or \$10 per Preferred share.

Preferred share transactions

Preferred share transactions during the periods ended May 31, 2026 and 2025 are summarized in the following tables.

<u>Preferred share transactions</u>	May 31, 2026	May 31, 2025

Class A shares and Class B shares

The Company is authorized to issue an unlimited number of Class A shares and 1,000 Class B shares. Class A shares were originally issued at \$15 per share. All Class A shares outstanding on the termination date will be redeemed by the Company on that date.

Class A shares trade under the symbol "FTU" on the TSX. The trading price of Class A shares on the TSX was \$0.51 as at May 31, 2026 (November 30, 2025-\$0.51). Class A shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last business day of each month. Shareholders who concurrently retract a Class A share and a Preferred share in the month of February in each year will be entitled to receive an amount equal to the net asset value per unit calculated on the last business day of February. Class A shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a recirculation agreement, the Company may, but is not obligated to, require the recirculation agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction. Gains or losses from the redemption of shares, if any, are recorded in gain (loss) on redemptions on the Statements of Comprehensive Income/(Loss).

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Upon the termination of the Company, Class A shareholders will receive an amount equal to any excess of net asset value per unit less \$10 (the redemption value of the Preferred shares).

The holders of Class B shares are not entitled to receive dividends. The Class B shares are retractable at a price of \$1.00 per share. Class B shareholders are entitled to one vote per share. On February 15, 2005, the Company issued 1,000 Class B shares to Quadravest, the Company's investment manager, for cash consideration of \$1,000.

Class A share transactions

Class A share transactions during the periods ended May 31, 2026 and 2025 are summarized in the following tables.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

Pursuant to the management agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate of 0.10% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date.

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date. In addition, Quadravest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

The monthly discount to net asset value of 2% applicable to the redemption of Preferred shares and Class A shares is payable to Quadravest. Redemption fees paid for the period ended May 31, 2026 were \$NIL (November 30, 2025-\$NIL).

Total management fees of \$48,433 (May 31, 2025-\$44,651), incurred during the period ended May 31, 2026, include the administration fee and base management fee. As at May 31, 2026, \$8,273 (November 30, 2025-\$7,878) was payable to the Manager with respect to the administration fee and investment management fee. No performance fees were paid during the period ended May 31, 2026 and the year ended November 30, 2025.

Total brokerage commissions paid during the period ended May 31, 2026 by the Company for its portfolio transactions were \$801 (May 31, 2025-\$1,379). Brokerage commissions paid to certain brokers may, in addition to paying for the cost of brokerage services in respect of portfolio transactions, also provide for the cost of investment research services provided to the investment manager. The value of such research services included in commissions paid to brokers for the period ended May 31, 2026 amounted to \$36 (May 31, 2025-\$152).

10. Increase (decrease) in net assets attributable to holders per redeemable Class A share

The increase (decrease) in net assets attributable to holders per redeemable Class A share for the periods ended May 31, 2026 and 2025 is calculated as follows:

	May 31, 2026	May 31, 2025
Increase in net assets attributable to holders of redeemable Class A shares	\$-	\$-
Weighted average Class A shares outstanding	1,807,318	1,535,227
Increase in net assets attributable to holders per redeemable Class A share	\$-	\$-

11. Capital Management

The Company considers its capital to consist of Class A, Class B and Preferred shares.

The Company's objectives in managing its capital are:

- to provide holders of Preferred shares with a cumulative preferential monthly dividend at an annualized rate of 10% based on the net asset value per unit as at the end of the preceding month, subject to a maximum monthly dividend of \$0.08333 per Preferred share and to pay holders the original issue price (\$10) of the Preferred shares on or about the termination date; and
- to provide holders of Class A shares with such dividends as the directors of the Company may from time to time determine and to pay on the termination date such amounts as remain after paying the holders of Preferred shares the amounts owing to them.

In order to manage its capital structure, the Company may adjust the amount of dividends paid to shareholders or return capital to shareholders.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIODS ENDED MAY 31, 2026 AND 2025 (UNAUDITED)

12. Reconciliation of net asset value per Class A share to net assets attributable to holders per redeemable Class A share

As at May 31, 2026 and November 30, 2025, there were no differences between net asset value per Class A share used for transactional purposes and net assets attributable to holders per redeemable Class A share for financial reporting purposes.

13. New IFRS Accounting Standard

In April 2024, the International Accounting Standards Board issued IFRS 18, "Presentation and Disclosure in Financial Statements", which replaces IAS 1, "Presentation of Financial Statements", and aims to improve the quality of financial reporting. IFRS 18 introduces requirements to present new categorization of performance activities by operating, financing and investing, and subtotals in the statement of comprehensive income (loss), adopt a structured approach to summarizing expenses (such as by nature or by function), and include a dedicated note disclosing management-defined performance measures used outside the financial statements. It also provides enhanced guidance on the aggregation and disaggregation of information within both the primary financial statements and the notes. This standard is effective for annual periods beginning on or after January 1, 2027, with early adoption permitted. The Company is currently assessing the impact of these new requirements.

In May 2024, the IASB issued amendments to IFRS 9, "Financial Instruments", and IFRS 7, "Financial Instruments: Disclosures". The amendments clarify the requirements for the timing of recognition and derecognition of financial assets and liabilities, introducing a new exception for certain financial liabilities settled through electronic payment systems. They also provide additional guidance on assessing the contractual cash-flow characteristics of financial assets with contingent features; and introduce new disclosure requirements for financial instruments with contractual terms that may change cash flows. These amendments are effective for annual reporting periods beginning on or after January 1, 2026, with early application permitted. The Company is currently assessing the impact of these new requirements.
